

FLASK, design by Diesel Creative Team, 2021

SUSPENSION

Inspired by the unique shapes of glass bottles used in science labs, Flask features a metallic surface that reveals its glass nature when lit. Its shape recalls an object with an industrial flavor in which the marked contrast between the lightness of blown glass and the material quality of the metal finish are combined.

The piece is further enhanced by the contrast between the matt metallic outer and the glossy inner surface that glows and dances with the light.
