

Alu-Bast Direct

The Alu-Bast Direct collection by ONE A is a modular system, which can be assembled in various constellations.

The collection consists of three main components, respectively in aluminium and alabaster, available in different lengths.

TUBE

ALUBASTER

TUBE - with downlight

The crossed-out wheeled bin symbol indicates that the item should be disposed of separately from household waste. The item should be handed in for recycling in accordance with local environmental regulations for waste disposal. By separating a marked item from household waste, you will help reduce the volume of waste sent to incinerators or land-fill and minimize any potential negative impact on human health and the environment.

INSTRUCTIONS TO CHANGE LIGHT SOURCE

STEP 1

To remove Alabaster Part:

1. With the accompanying allen key turn the screw clockwise until the Alabaster part can rotate
2. Take hold of the Alabaster part, then gently pull down, whilst slightly rotating

NOTE: When rotating the fixture choose the direction with the least resistance.

STEP 2

1. Turn the 3 screws anti-clockwise using the allen key.
2. Remove the retaining ring using light pressure.

Then replace the light source, reattach the retaining ring, make sure it snaps. Finally, fasten the 3 screws, so that they are flush with the fixture ring.

STEP 3

1. Remount the Alabaster part in the Tube, by gently rotating until the allen screw aligns with the hole in the Tube.
2. Secure the Alabaster part in place by turning the screw anti-clockwise until the screw is flush with the tube.

NOTE: When rotating the fixture choose the direction with the least resistance.

IMPORTANT INFORMATION

Installation and mounting must be performed by a certified electrician only, and instructions must be followed.

CLEANING AND MAINTENANCE:

Use a soft moist cloth for cleaning. No further maintenance is required.

WARRANTY:

If the product is defect, please contact your supplier immediately. Please note that warranty will not apply in case of wrongful use or if unskilled personnel attempts to repair.

STEP 4

Lightly push in the honeycomb, thereby creating space to take hold of the Direct fixturing, then gently pull down.

STEP 5

Remove the retaining ring using light pressure and replace the light source. Reattach the retaining ring, make sure it snaps. Then remount the Direct in the Tube, by slightly rotating the Direct into place.

NOTE: When rotating the fixture choose the direction with the least resistance.

ASSEMBLY INSTRUCTION page 4 of 4

Suspension wire can be mounted in Storm Output, for further information refer to Storm Output's technical information.

Feed the accompanying steel wire through the small hole in Storm Output, then fasten the screw

WIRE SUSPENSION ASSEMBLY INSTRUCTION

STEP 1

Mount the wire suspension to the ceiling with a screw.

STEP 2

Mount the wire lock in the wire suspension.

STEP 3

Guide the wire through the wire lock

STEP 4

Then pull the wire out through the slot

IMPORTANT INFORMATION

Disassembly must be performed by a certified electrician only, and instructions must be followed.

WARRANTY:

If the product is defect, please contact your supplier immediately. Please note that warranty will not apply in case of wrongful use or if unskilled personnel attempts to repair.
